Session Members,

The Roll Cleaning team has been hard at work over the last few months and we have a report to share. We have poured through the roles and selected 346 folks to begin the process of removing from our rolls.

Because it has been so long since WPC has performed this cleaning, we took a conservative path. We are only proposing removal of folks who our records show have not attended or contributed in the last **three years**. The Book of Order guidelines (BOO G-10.0302-.0401) recommend this path after only **two years** of inactivity. Further, we are mailing each a letter (attached) encouraging their return to our active family of faith. We will wait twelve months for a reply before removing these 346 people from our rolls.

Attached is a PDF document of those 346 folks. Please review the content. We need to hear from you if we have misidentified any of these member candidates for removal. Our team plans to send the letters following the May session meeting (May 26 2009). This gives you six weeks to review and comment. Also attached is the letter that will be sent. Both of these files are on the session website and will remain there indefinitely.

The way I read the Book of Order, the sending of the letters does not require session approval. However, twelve months from now, when we move to the next step of removing these members, your approval will be required.

Please send any comments or concerns to myself and/or any of the roll cleaning team. They are:
